"The Finest
Nursery Stock
I've Ever Grown"
Says Sears
Customer

Buy Now! Before Prices Advance

Nursery stock is not as plentiful as it has been. Fruit trees particularly are getting scarce. Prices are going up! Sears contracts with reliable nurserymen made early—before price advances,—enable us to save you more than usual. Grades or quality have not been sacrificed in order to make these low prices. We firmly believe that you will never again see prices for quality trees, plants and bulbs as low as they are in this book. For that reason we urge you to plan to plant this season.

A Profitable Investment

An investment in Fruit Trees or Berries at these low prices should yield good dividend paying crops for years to come and Roses, Shrubs and Bulbs will pay for themselves many times over in the pleasure you'll get out of them. Besides, they'll increase the value of your property! Now is the time to buy! All Nursery Stock on this page shipped direct to you from the Nursery in Delaware. Not Prepaid.

Because of the expense of packing orders at the nursery for individual shipment, we cannot accept nursery orders for less than \$1.00.

NOTE: Sears Planting Guide sent free with all orders.

OUR GUARANTEE

We guarantee all of our nursery stock, bulbs and seeds to be true to name, thrifty and free from disease and to reach you in good condition. Any stock proving otherwise will be replaced free of charge or the purchase price will be refunded. Because of conditions beyond our control after receipt of merchandise and in accordance with trade practice, we cannot be responsible for the crop.

Dorsett and Fairfax (The Wonder Berries)

Two New Government Recommended June Bearing Varieties

These two new varieties originated by the U.S. Dept. of Agriculture at the Government Field Station in Maryland are creating a sensation among strawberry growers. Our nursery is one of two selected by the Dept. of Agriculture to disseminate these two new outstanding varieties and for that reason Sears are able to offer them to their customers in advance of offerings by the General trade. It is predicted that the demand for these varieties will be enormous in the near future. You can cash in on this demand by ordering a supply this year. We suggest that you try some of each variety.

Dorsett: 71 E 531—A cross of Royal Sovereign and Howard 17 (Premier). Vigorous, productive and of high dessert quality. Fruit large and bright red. Good shipper. Bears early, about the same time as Howard 17.

Fairfax: 71 E 532—Parentage not definitely known. Believed to be a strain of Howard 17. Fine appearance, and high quality. Handsome red berries. Firmer than Howard 17 and will stand long distance shipping. Shipped from nursery in Delaware. Not Prepaid.

25 Plants	100 Plants	250 Plants	500 Plants	1000 Plants
50c	\$1.50	\$3.00	\$5.50	\$10.00

Ready for shipment March 1st, depending on weather.

Everbearing Strawberries

Everbearers bring in money after the regular June crops are done. By all means, have a few everbearers in your garden.

Mastodon: Most extensively planted everbearing variety. Produces extremely large fruit throughout the summer and fall months.

Progressive: Of vigorous habit; hardy and productive. Berries deep crimson, fine quality.

Plant 18 in. apart in 3-ft. rows. Shipped from nursery in Delaware. Not Prepaid. Shpg. wts.; 25 plants, 1 lb. 8 oz.; 100 plants, 3 lbs.; 250 plants, 8 lbs.; 500 plants, 16 lbs.; 1,000 plants, 35 lbs. 5000 or more plants shipped by Express only.

June Bearing Strawberries

Senator Dunlap: The old reliable widely planted variety. Deep red.

Premier (Howard No. 17): An extra fine early bearing variety. Preferred by many commercial growers.

Wm. Belt: Vigorous grower; invariably yields heavily. Large size berries.

Joe (Joe Johnson, Big Joe): A midseason to late variety. Good size, firmness and yield. Superior to many in flavor and color.

Quantities up to 5,000, 71 E 526

These varieties ready for shipment about March 1st, depending on weather conditions.

Enjoy strawberries in all seasons from our special collection. 25 plants each. Premier, Senator Dunlap, Aroma and Progressive Everbearing. In case of shortage of any one kind a variety equally as good will be substituted.

71 E 507—100 Plants. Not Prepaid. Shpg. wt., 3 lbs. \$1.10

Without a doubt Raspberries are money makers. They are easy to grow and will do well in most any soil. Often waste land can be planted to them. Many planters grow them in young orchards and in that way get a return from the land while the fruit trees are developing.

Chief: A recent introduction of the Minnesota State Experimental Farm. Similar to Latham, but considered by some to be of better quality and more prolific. Most everyone knows what a sensation and what a money maker Latham has been. **Crimson color.**
Latham: One of the finest reds ever originated. Like Chief, it originated in Minnesota. Hardy in extreme northern sections. It is a proven money maker. A heavy producer. Yields of as high as 5,000 quarts per acre are on record!

Other Leading Varieties

Cuthbert: Large, rich crimson color berries of superior quality and flavor. Fine for canning. A favorite red raspberry. Moderately hardy and does well in a wide variety of soils.

St. Regis: A superb variety and now considered absolutely the finest everbearing red raspberry. Gives more uniform and satisfactory results year after year than any other red raspberry. Produces fruit from early Summer to Fall.

Cumberland: Large jet black berries, firm and of excellent quality, sweet and mild, ripening in midseason. Produces the largest Blackcap crop. Shipped from nursery in Delaware. Not Prepaid. Shpg. wts.; 10 plants, 2 lbs.; 50 plants, 8 lbs.; 100 plants, 16 lbs.; 500 plants, 90 lbs.; Orders for 500 plants or more shipped by Express.

BLACKBERRY PLANTS

Blackberries may be planted along fences or lot lines and in that way you can make waste land produce a revenue. Plant 6 feet apart. Shipped from nursery in Delaware. Not Prepaid.

Eldorado: Very high quality. Withstands cold. Medium size, jet black, sweet and melting. Good keeper.
Snyder: Enormously productive, sweet, hardy.
Blowers: Large berries of superb quality.
Lucretia (Dewberry): Ripens earlier, is sweeter and equals in size the best blackberries.

2 YR. OLD GRAPE VINES

Strong, Well-Rooted Vines

Regardless of our low price you will find our vines to be strong, well-rooted, vigorous and worth much more than ordinary scraggy-rooted stock. Grapes can be grown on hill-sides, along boundary lines or on arbors and trellises. Plant grapes about 10 ft. apart.

Popular Varieties

Concord (Black): Best known grape. Succeeds practically everywhere.

Agawam (Red): Berries are large, rich and sweet. Ripens after Concord.

Niagara (Green): The most widely planted green grape. It bears more heavily in some localities than Diamond.

Catawba: The standard red grape of Eastern America. Vines are vigorous, productive and hardy.

Delaware (Red): Best table grape and an old time favorite.

Diamond (Green): Hardest, most productive and vigorous of the green grapes.

Moore's Early (Black): Best early; commercial grape. Ripens two weeks earlier than Concord.

Caco (Red): A cross between Catawba and Concord. Retains good qualities of both.

Worden (Black): Better quality and larger than Concord. Ripens about 10 days earlier.

Not Prepaid. Shpg. wts.: Each, 1 lb.; 10 vines, 4 lbs.; 25 vines, 10 lbs.; 50 vines, 20 lbs.; 100 vines, 40 lbs.; 500 vines, 150 lbs.

Quantities up to 500, 71 E 570

Shipped from nursery in Delaware. Orders for 500 or more are shipped by Express. Not Prepaid.

MONEY on NURSERY STOCK

PEACH TREES APPLE TREES

This is the time to plant Peach Trees. Not only because we anticipate higher prices for young trees but because we firmly believe that fruit prices will be much higher when these trees come into bearing. Set Peaches 15 to 18 ft. apart. Plant on northern or western exposures so that they will not bloom too early and suffer from early frosts.

Midsummer Ripening

Elberta (Freestone): The most widely grown commercial Peach. Large, golden yellow. Shaded with deep red. Flesh is firm and of rich yellow color. Ripens about August 15.

Belle of Georgia (White Freestone): Handsome, large, white blushed with red, excellent quality, hardy, best white peach. Good shipper. Ripens August 15.

J. H. Hale (Freestone): One of the most popular peaches. Very large, golden yellow. Skin overlaid with cerise. More highly colored than Elberta. Ripens about August 10 to 15.

South Haven (Freestone): Very popular in Michigan where it was recently introduced. Unusually hardy and very productive. Ripens about August 15.

Late Ripening

Late Crawford (Yellow Freestone): A high quality large yellow peach, scarcely equalled in flavor and adaptable to a wide range of soils and climate.

State Variety Wanted.
Not Prepaid. See Apples for Shpg. wts.

2 to 3-Foot Trees—Orchard Size. We can furnish any one of the above varieties in bunches of five. No less than five of one variety sold. State variety wanted. Not Prepaid. Shpg. wt., 3 lbs.

71 E 112—Bundle of 5 trees 89c

Early Ripening

Carman (White Semi-Freestone): A great favorite. Good size; white with red blush. Bears abundantly; hardy and vigorous. Ripens July.

Hiley (Freestone): Creamy white with deep red cheek. Flesh is white, very juicy and of fine quality.

Rochester (Freestone): Valuable extra early peach. Large fruit. Deep golden yellow skin with red cheek. Very juicy. Ripens late July.

Early Elberta (Freestone): Very large, high quality; lemon yellow. Sweet fine grained flesh. Ripens a few days earlier than Elberta.

Size	Catalog No.	Each	5	10
3 to 4 ft.	71 E 113	25c	\$1.19	\$2.19
4 to 6 ft.	71 E 114	33c	1.59	2.89

Early Apples

Yellow Transparent: A fine early variety. Medium size yellow skin. Fine grained white flesh, juicy.

Early Harvest: Medium size apple of very good quality. Thin skin, waxy yellow color with slight blush on sunny side, flesh white, tender, crisp and juicy.

Maiden's Blush: An old favorite waxy yellow with crimson blush. Medium size white, crisp flesh, tender and juicy.

Red Astrachan: One of the leading early varieties. Large; deep crimson.

Fall Apples

Grimes Golden: Medium size yellow; delicious flavor and rich golden color. Flesh is very firm, crisp, tender and juicy.

Wealthy: White fleshed, juicy, beautiful apples, medium size fruit deep red. Suitable for Northern planting.

Young apple trees are scarce this year. Despite the scarcity, Sears prices are low and you can save by selecting your trees from the following assortment of varieties. What is true of other fruit trees is also true of Apples. Orchard plantings have decreased during the past few years and trees planted now should come into bearing at a time when you can get the most for fruit.

Late Fall and Winter Apples

Delicious: Large red apples, beautiful in form and color. Mild in flavor, crisp and juicy. An excellent commercial variety.

Jonathan: Bright red color. Flesh whitish, sometimes tinged with red, tender, very crisp, firm and juicy.

Baldwin: Large red, fine quality winter apple; flesh yellow, firm, tender crisp, juicy and of good quality.

McIntosh: A most beautiful apple of extra high quality. Deep red in color; a splendid keeper. A favorite wherever known.

Rome Beauty: Large handsomely colored apple; striped with bright red. Flesh is firm, crisp, juicy and of good quality.

Staymans Winesap: Dark, rich red. Flesh tinged with yellow; firm and crisp.

Northern Spy: A very popular variety of the highest quality. Large, pale yellow—mottled with red.

Crab Apples

Hyslop: Large, dark red color. Flesh yellow; sub-acid, astringent, and good for cooking.

NOTE. All nursery stock is shipped from nursery in Delaware. Not Prepaid. Shipment is made at the proper planting time. You may depend on the judgment of our nurseryman as to the proper time to ship. Planting instructions sent free with all orders.

APRICOT TREES

Apricots are becoming more popular every year. They are as hardy as Peaches and may be planted wherever Peaches grow. Should be planted on a northern or western exposure to retard early blooming.

Early Golden: Fruit small, pale orange, juicy and sweet.

Moorpark: Desirable variety. Yellow with red cheek, juicy sweet and rich. Very productive.

Alexander: A Russian variety. Hardier than Early Golden or Moorpark and therefore can be grown in localities where peaches fail. State variety wanted. Not Prepaid. Shpg. wts., same as Apples.

Size	Catalog No.	Each	5 Trees	10 Trees

CHERRY TREES

In recent years, there has been an over-production of Cherries with the result that trees have been neglected and orchards have not been replaced. For that reason we advise planting now. Sour varieties should be planted 15 ft. apart and Sweet about 20 ft.

Sour or Pie Cherries

May Duke: Large, red and juicy. Ripens in July.

Montmorency: The most largely planted of the Sour varieties. Fruit is a beautiful glowing red and does not crack nor rot even in very hot, rainy weather.

Early Richmond: A fine early sour cherry. Fruit is medium size, dark red; tender.

Sweet Cherries

Gov. Wood (Sweet): Does exceedingly well in the East. Fruit is red and amber. Excellent quality.

Black Tartarian (Sweet): Lustrous, purplish-black when ripe. Medium size, firm, excellent flavor.

Yellow Spanish (White Amber): A beautiful cherry. Pale amber color with red on sunny side.

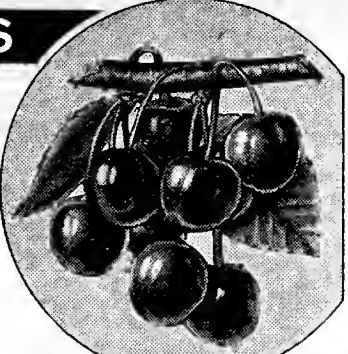

Napoleon (Sweet): Pale yellow and bright red, large juicy. The favorite light colored sweet cherry.

Pears, Plums and Rhubarb

Nothing so luscious as the Pear. Every orchard or garden should contain some pear trees. They grow in almost any soil but do best in clay loam. Plant 20 ft. apart.

Bartlett: Large beautiful golden yellow. Flesh white, juicy, sweet and delicious; ripens early.

Angouleme (Duchess): Autumn, Extra large, green; buttery, rich, juicy: Best when picked early and put away for ripening. Bears when very young.

Seckel: A small high quality pear. Juicy sweet and fine eating. (Called the Little Sugar Pear).

Kieffer: Rich golden yellow, tinted red. Firm, crisp, and juicy. Improves after picking.

Clapp's Favorite: Ripens early. Lemon yellow, brown dots. State variety wanted. Not Prepaid. Shpg. wts., same as Apples.

Plums

Plums will thrive almost anywhere. Just the tree for the chicken run. Plant 20 ft. apart.

Bradshaw: Early and very large. Purple, very fair quality; a strong growing variety, excellent for canning.

Burbank (Midseason): Large dark red. Flesh amber yellow, firm, very juicy and fine sweet flavor.

Green Gage: Yellowish-green. Fine quality.

Shropshire (Damon) (Late): The most widely planted Damson. Purplish-black. Very productive.

Abundance (Early): A pinkish-red, medium size Japanese plum. Flesh is yellow, tender and juicy.

State variety wanted. Not Prepaid. Shpg. wts., same as Apples.

Rhubarb

Rhubarb for early Spring pies and sauces. A fine Spring Tonic. Prefers rich, deep loam. 10 to 20 plants set 4 ft. apart should supply the needs of the average family! The forcing of Rhubarb in hotbeds, under greenhouse benches or in cellars for winter and early spring markets, is profitable.

Myatt Linnaeus: The leading variety. Large, early, tender; neither stringy nor tough. Prolific.

71 E 680	6 Roots. Shpg. wt., 3 lbs.	\$0.43
	12 Roots. Shpg. wt., 5 lbs.	\$0.79

THESE ROSES WILL BLOOM THIS COMING SUMMER!

2 Year Old Everblooming Rose Bushes

These selected varieties will bloom all summer long from June to frost time. Shipped from nursery in Delaware. Not Prepaid.

Red Radiance: Bright cerise (red). Form like Radiance.

La France: Large, silvery pink, lilac shading.

Lady Hillingdon: Yellow flowers of pleasing apricot shade.

Killarney Double White: Buds of a typical Killarney form.

Sou. de Claudius Pernet: Sunflower yellow. Flower is large and full; buds long and pointed.

Betty Uprichard: Petals a blend of carmine with coppery orange.

Los Angeles: A flame pink toned with coral and shaded with yellow at the base of petals.

Mrs. Charles Bell: Lovely shell pink with salmon shading.

Sunburst: Double flowers of deep yellow.

Francis Scott Key: Beautiful double crimson.

Gross An Tepitz: Bright rich scarlet color. One of the best roses for continuous bloom.

Radiance: The favorite rose of all America. Its brilliant rose-pink buds open into well-formed flowers.

Killarney Brilliant: A delightful combination of rose and pink. Long slender buds make it exquisite for cutting.

Jonkheer J. L. Mock: Clear imperial pink, reverse of petals rosy-silvery white. Awarded five first prizes in Europe.

Pink Maman Cochet: Best pink tea rose for outdoor planting.

Kaiserin Augusta Victoria: Delicate pure white. Excellent for cutting. Its buds are borne on long stiff stems.

Pres. Hoover: A combination of scarlet, yellow, pink and flame.

Talisman: A mixture of orange, yellow and rose-red so changeable as to make description difficult. Excellent for cutting.

Mrs. Calvin Coolidge: Clear, buff-yellow flowers; with orange center.

SPECIAL ROSE BUSH COLLECTION

FLOWERING SHRUBS

Nothing in the way of home improvement can add to the value of the home as quickly and as cheaply as a shrub planting. Select an assortment from these choice hardy varieties. All strong well-rooted plants not to be confused with weak spindly plants at lower prices. Shipped from Nursery in Delaware.

Not Prepaid. Shpg. wts., each, 1 lb. 8 oz. All shrubs are 18 to 24 inches tall unless otherwise specified.

Almond (Pink Flowering) 71 E 1301—Small shrub with beautiful soft pink double flowers in early season. Strong plants.

Aithea (Rose of Sharon) 71 E 1300—Makes a compact upright growth from 8 to 12 ft. Pink flowers, 2 to 3 ft. plants.

Barberry (Japanese) 71 E 1307—Fine shrub for all purposes. Good for planting next to foundation of house.

Barberry (Red Leaved) 71 E 1308—Has attractive red foliage throughout summer and fall. Must be planted in sun.

Bridal Wreath (Spiro Van Houttel) 71 E 1466 The most popular shrub. Very attractive with its mass of white flowers in April. 2 to 3 ft. plants.

Butterfly Bush: 71 E 1311—Grows 3 to 6 ft. tall. Conspicuous lavender "lilac" flowers.

Cornelberry (Red Snowberry) 71 E 1323—Clusters of pink berries. Valuable for shady places.

Deutzia (Pride of Rochester) 71 E 1335—Fast grower, 6 to 8 ft. Flowers in large panicles or clusters in late May. White, tinged with pink.

Dogwood (Red Barked) 71 E 1339—The red bark of this shrub is attractive in winter. Heavy, 2 to 3 ft. plants.

Golden Bell (Forsythia) 71 E 1371—Hardy fast growing shrub with good foliage, which follows the showy yellow bell shape flowers.

Golden Elder 71 E 1356—Foliage is green in spring but turns to bright golden yellow early in the season. Adds a touch of color to any shrub planting.

Honeysuckle (Fragrantissima) 71 E 1377—Grows 6 to 8 ft. broad and spreading. White flowers followed by red berries that hang on into the winter, 2 to 3 ft. plants.

Honeysuckle (Red Tartarian) 71 E 1380—Large shrub. Spreading habit, red flowers. Good shrub for mass planting.

Hydrangea A. G. (Hills of Snow) 71 E 1375—Huge dense balls of small white flowers in June and July, 4 to 6 ft. tall.

Hydrangea P. G. 71 E 1376—Larger than the Hydrangea A. G. Clusters of very showy white flowers, turning pink and bronze later in season. Blooms in August.

Japan Quince 71 E 1446—Grows 4 to 6 ft. Glossy green foliage. Attractive scarlet flowers in April.

Lilac (Purple) 71 E 1410—The well-known variety with fragrant purple flowers, 2 to 3 ft. plants.

Snowball 71 E 1480—Noted for its cluster of handsome, globular, pure white flowers in May.

Snowberry 71 E 1485—Small pink flowers in July, followed by waxy white berries. 2 to 3 ft. plants.

Spiraea (Anthony Waterer) 71 E 1467—Low growing shrub with dense, deep green foliage. Bright pink flowers in clusters. 12 to 18-inch plants.

Spiraea Froebel 71 E 1472—Similar to Spiraea Anthony Waterer but not quite so dwarf.

Spiraea Thunbergi 71 E 1470—Dwarf growing with slender, graceful, drooping branches. White flowers. Plant in front of tall shrubs.

Syringa (Mock Orange) 71 E 1460—Flowers are like Orange Blossoms. Attractive foliage.

Weigelia (Pink) 71 E 1505—Showy flowers that vary from deep rose to pink. Blooms in May.

Weigelia (Red) 71 E 1506—Red flowers and nice foliage.

Not Prepaid. Shpg. wt., each, 8 oz.

Lily of the Valley (Heavy Clumps)
Fragrant bell-shaped flowers on long stems. Does best in a shady, moist place where it will give a quick and pleasing effect. Order some now and get a bed of them started in a cool corner, next to the foundation of your house or some such suitable place. Makes a good cover for waste ground where tall plants cannot be used. All clumps are large size suitable for outdoor planting. We especially recommend the clumps instead of low-priced small pups for outdoor planting, as they give quicker results with less chance of a loss. Not Prepaid. Shpg. wt., each, 1 lb.
71 E 3212—Large clump. Each..... 29c

Tuberose (Excellent for Cut Flowers)
Beautiful flower spikes on long stems. We offer only choice Dwarf Pearl Tuberose which are the most desirable. The bulbs should not be planted until all danger from frost is past and the ground is warm. Can be started in pots in a warm place and moved to open ground about the end of May. Pot started bulbs will flower much earlier. Not Prepaid. Shpg. wt., 12 bulbs, 8 oz.
71 E 3200..... 12 bulbs 33c

Bleeding Hearts (Dicentra Spectabilis)
An old garden favorite. Beautiful heart-shaped flowers on graceful drooping panicles. Hardy and comparatively easy to grow. Very fine for border plants and for forcing in pots. Choice large roots containing 4 to 6 eyes. Not Prepaid. Shpg. wt. each, 1 lb. 8 oz.
71 E 3175..... Each 29c

PERENNIAL ROOTS

Strong Hardy 2 Year Old Roots

Nothing in the line of flowers will give so much pleasure for so little money. Perennials bloom year after year and are adaptable to many different locations in the yard. Try Sears healthy roots this year.

Baby's Breath (Gypsophila): When in bloom it is a mass of tiny white flowers forming a beautiful airy, mist-like effect. Grows 2 to 3 ft. high.

Blanket Flower (Gaillardia): Yellow flowers flecked with crimson and brown. A sturdy vigorous plant that grows to a height of 2 ft.; it starts blooming in June and lasts through the autumn and into the winter.

Canterbury Bells (Campanula): 2 to 3 ft. Bell shape flowers on long stems. Just the plant for an old fashioned garden. Assorted colors.

Chrysanthemums: Height, 2 to 3 ft. Assorted colors.

Columbine (Aquilegia): Large flowers of blue, lavender, red and white on long stems. 2 to 3 ft. tall.

Daisy-Golden (Coreopsis): One of the best hardy yellow flowers for cutting. 2 to 3 ft. high.

Daisy-Painted (Pyrethrum): Attractive blossoms, unsurpassed for beauty. Grows 1 to 2 ft. high.

Daisy-Shasta: Pure white petals and yellow centers. No bouquet is complete without some of these lovely flowers. 2 to 3 ft.

German Iris: Commonly known as the "Flag Lily." Produce exquisite and fragrant blooms in May and June. Mixed colors; 2 to 3 ft. tall.

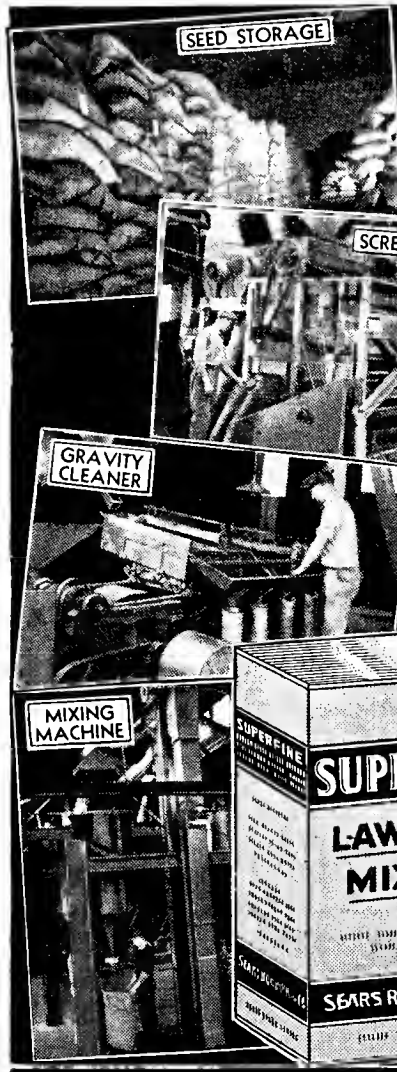

State Variety Wanted. Shipped from Nursery in Delaware. Not Prepaid. Shpg. wts., three, 1 lb., six, 2 lbs.
71 E 2057—Any of the above; your choice 3 Roots for 37c: 6 Roots for 69c

Red Hot Poker— (Tritoma)

The tall, showy spikes of flaming orange red flowers give the plant its name. Blooms from the end of July to October. A group of these plants in front of the shrubbery is very attractive. Should have a sunny, well drained location in cold climates, and in severe climates it should be dug and stored in cool cellar in winter. Not Prepaid. Shpg. wt., each, 1 lb.

Quality **LAWN SEED** MULTI-CLEANED *Purity Tested*

SEED LABORATORY
Test No: 32120.
Date: NOV. 29, 1933
Kind: KENTUCKY BLUE GRASS
Purity: 90.29
Owner: SEARS, ROEBUCK AND CO
Address: CHICAGO, ILL.

BUY GOOD LAWN SEED—IT PAYS

We are confident that our Grass Seed is the choicest, purest and best grass seed it is possible to buy.

We know how carefully it is cleaned and graded to meet our high standards and specifications. We know how rigidly it is tested for purity, for germinating quality. Modern machinery removes chaff, weeds and other impurities. From the grower to the sealed package, every operation is checked and double checked. Seed experts start with the best seed the market affords. They follow up all cleaning processes, constantly inspecting the seed and finally examining it under microscopes, determining by actual count the

degree of purity. Their guaranteed analysis accompanies each delivery. All of this painstaking care insures your getting a grass seed with a reputation for producing the finest turf.

Because of our splendid quality we have built up an enormous volume and today we are the largest retailers of Grass Seed in the World. This in turn, enables us to offer you these fine Grass Seed Mixtures at prices which are as low or lower than are usually charged for only ordinary grades.

Sow lawn seed at the rate of 1 lb. to 200 square feet (20 feet x 10 feet).

Superfine Mixture
A mixture of the highest purity, choice seeds. Blended by experts. The finest Kentucky Blue and Red Top are the basic varieties of this Superfine mixture. Contains no Timothy and a minimum of inert material. A mixture of this high purity ordinarily sells for 50c to 75c per pound. Not Prepaid.

MAKE A FLOWER GARDEN EASY WAY
A Perfect Garden No Guess Work
Easy to Plant Following Instructions
98c 1½x10 ft.

"COME-PAKT" PLANNED FLOWER GARDENS

Your Flower Garden need no longer be a matter of guesswork. No longer need you wonder where or how far apart to plant different varieties or whether the height and color arrangement is proper. All the experimenting, planning, designing and selection of flowers has been done for you by a professional landscape architect. Varieties have been selected from such popular annuals as: Zinnias, Marigolds, Petunias, Calendulas, Alyssium, Portulaca, etc. All you have to do after ground has been prepared is to lay the Mulch Paper Pattern on the ground and plant seeds from numbered packets in the holes in pattern bearing corresponding number. You can't possibly go wrong. It's economical too. We include (1) Heavy Mulch Paper Pattern. (2) Vigoro Fertilizer. (3) Flower Seeds. (4) Wire Fasteners (not illustrated) to prevent paper from blowing away. Mulch Paper is left on ground, thus preventing weed growth and conserving moisture. Flowers grow through holes in paper.

Size feet	No. of Varieties	Cat. No.	Price
1½x10	8	71 E 2465	Postpaid \$0.98
2x10	12	71 E 2466	Postpaid 1.45
3x10	17	71 E 2467	Postpaid 1.95

All Seeds Listed Below 8c Per Packet Not Prepaid Shipping Weight, 1 Ounce Per Pkt.

Peppers

Ruby King. 71 E 2148—Very prolific. Pods 3 to 4 1/2 inches long. Bright red. Use for slicing, etc. Packet, 8c; ounce.....32c

Chinese Giant. 71 E 2149—One of the largest red peppers. Mild, tender and sweet. Can be sliced like tomatoes. Packet, 8c; ounce.....49c

Long Red Cayenne. 71 E 2150—Small and long. Very productive. Extremely strong. Pkt., 8c; oz.....34c

NOTE: Prices on 1-pound and 5-pound lots apply only to the varieties so listed. Write for prices on larger quantities of any varieties of seeds listed on this page. We will be glad to quote.

"YOUR PLANTS WORTH DOUBLE the PRICE!"

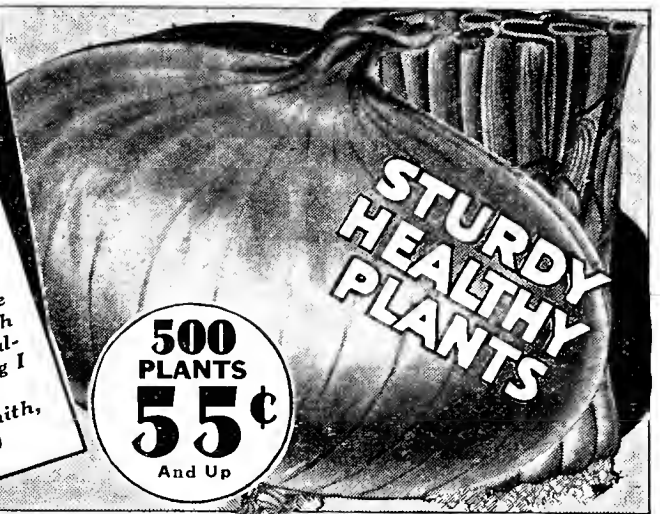

Extra Fine TOMATO PLANTS

100 PLANTS 52c

Says Sears Customer

Sears, Roebuck and Co.
Dear Sirs:—
The plants arrived Saturday morning and I made good use of them. They were good, large, strong plants and I sure was proud of them. I never dreamed they would be so large. I don't see how you can sell such fine plants at so little a price. They are worth double the price, but I am always pleased with anything I get at Sears.
Mrs. Robert L. Smith,
(Address on Request)

STURDY HEALTHY PLANTS

500 PLANTS 55c
And Up

NOT GREENHOUSE GROWN Field Grown and Well Hardened

While Tomato plants are not freezeproof, ours have been grown in the open field and are well hardened and capable of standing more abuse than tender plants. Sears plants will produce early crops at a time when home grown tomatoes usually bring a premium. Your Tomatoes will be ready for market weeks ahead of a crop grown from seed. Shipped direct from grower in Valdosta, Georgia. Late May orders shipped from Southern Delaware.

Varieties are listed in the order of Maturity.

- Earlana:** A first class tomato that is profitable for both the market gardener and the home gardener. Bright Scarlet color.
- Greater Baltimore:** A midseason variety of great merit. Very heavy due to the extreme firmness of the thick meat. Many claim this is the finest canning tomato in existence. A dependable producer.
- Marglobe:** A wilt resistant, main crop, midseason variety. A fine red globe shaped tomato of great merit. Very productive.
- Redfield:** One of the most satisfactory tomatoes you can grow. Has a very tough skin and can be hauled or shipped long distances without damage. Its color is a glossy crimson with a slight purple tinge. Fruit is uniform in size and of excellent quality. Bears fruit long and heavily.
- Stone:** A first class tomato for the main crop. Extra large and bright red. A standard tomato for those who grow for canning. Also a good slicing tomato, solid, smooth and round.
- State variety wanted. Ready about April 15. Please specify shipping date and plants will be forwarded as nearly as possible to the time specified. Also specify if wanted for growing in cold frames. Not Prepaid.

IT'S EASY TO GROW ONIONS When You Use Sears Healthy Plants

It's much easier to grow an onion crop from plants than it is from either sets or seeds. You can have fine matured Onions from our plants at least two weeks ahead of Onions from sets and a long time ahead of Onions from seeds. Besides, there is an advantage in using plants because they seldom run to seed while onions from sets do run to seed.

Our Onion Plants are sturdy and healthy. They are grown on disease-free land and are inspected by State Inspectors before shipment. Millions of our plants are used year after year by growers who have learned the advantage of Sears plants over sets or seeds.

All Onion plants shipped in special aerated containers, so that they will reach you in perfect condition. Not Prepaid. Shipping weights—5 bundles, 4 lbs.; 10 bundles, 6 lbs.; crate, 35 lbs.

NOTE—Onion Plants are tied in bundles of approximately 100 plants. Bundles may vary slightly, some containing a few less than 100 plants and some containing a few more.

Bermuda Onions

Bermuda Onions are noted for their earliness, heavy yielding qualities and mildness of flavor. They are the mildest Onion we know of. Equally good pulled green or after they have matured. Fine for slicing or cooking.

The demand for Bermudas has increased tremendously in the last few years and growers who want to keep up with the times should by all means plan to grow some of this type. Suitable for the home garden, too.

Yellow Bermudas

The Yellow Bermuda made Texas famous as an onion growing state. Sometimes called White Bermuda, although it is a light yellow or straw color. The Yellow Bermuda keeps a little better in storage than the Crystal Wax, so be sure to plant a few rows of each kind. You will be pleasantly surprised with them if you have never tried to grow them.

- 5 bundles 71 E 705—(approx. 500 plants). Not Prepaid..... 55c
- 10 bundles 71 E 706—(approx. 1000 plants). Not Prepaid..... 85c
- 6,000 plants (1 crate). 71 EM 707—Crate lots shipped By Express. Not Prepaid.... \$3.79

Crystal Wax Bermudas

A pure white onion with a pleasing waxy appearance that makes it very popular in the retail market. Usually brings 25c to 50c per crate more than the Yellow. The Crystal Wax is almost exactly the same as the Yellow Bermuda in quality, the color being the main difference.

We suggest that if you have never tried the Bermuda Onions, you order some of each for a trial to find out which you prefer.

- 5 bundles 71 E 700—(approx. 500 plants). Not Prepaid.... 55c
- 10 bundles 71 E 701—(approx. 1000 plants). Not Prepaid.... 85c
- 6,000 (1 crate). 71 EM 702—Crate lots By Express. Not Prepaid.... \$3.79

NOTE: Orders for 500 plants must call for only one variety.

Sweet Spanish or Valencia Onions

Riverside strain. The better keeper and best all around variety of the large sweet Spanish types. Globular; uniform size. Similar to Prizetaker but larger. Golden yellow skin; flesh white, very mild and pleasing flavor. Order some Sweet Spanish with your Bermudas and have onions long after the other varieties are off the market. Not Prepaid.

|---|--|--|
| 5 bundles 71 E 710 (approx. 500 plants). Shpg. wt., 4 lbs. 59c | 10 bundles 71 E 711 (approx. 1000 plants). Shpg. wt., 6 lbs. \$1.10 | 6,000 plants (1 crate). 71 EM 712—Crate lots. Shipped by Express. Shpg. wt., 35 lbs. \$3.98 |
|---|--|--|

NOTE: Express charges on crate lots average about \$1.50 to \$1.75 to points in territory served by our store. All onion plants for early setting shipped from our mail order house or grower in Southern Texas. Late season orders can be shipped from more northerly points, weather permitting, and in that event there would be a saving in express charges. Shipping weight, 1 crate, 6,000 plants, 35 lbs. READY FOR SHIPMENT ABOUT APRIL 1st TO 15th.

FROSTPROOF CABBAGE PLANTS

200 Plants 52c
And Up

Bigger Profits from Earlier Crops

Sears Frostproof Cabbage Plants will stand 20° above zero without injury while under similar conditions tender plants would freeze. Sears plants are grown in the South during the winter in the open field making them tough, hardy and able to resist cold weather.

Their frostproof qualities make it possible to set in the open field much earlier than tender plants could be set out, which means that you can get matured cabbage on the early market when highest prices usually prevail.

We ship millions of these frostproof plants to satisfied planters year after year. If you have not tried this method of growing Cabbage, plan to do so this season. Order some today for shipment at proper planting time in your section.

IMPORTANT: To get the full benefit of their frostproof qualities, these plants must be set out at least a month earlier than ordinary plants. When weather is cold the tops do not grow, but the roots develop and are ready to boost top growth when spring comes. If you want plants for setting in cold frames please so state on your order and give shipping date.

Varieties, (listed in order of maturity): Early Jersey Wakefield, Golden Acre, Copenhagen Market, Early Flat Dutch, Premium Late Flat Dutch.

State variety wanted. Varieties are tied 50 to the bundle and orders should be made up in multiples of 50 of a kind. Shipped from VALDOSTA, GA. Ready about April 1st. Late season orders shipped from Southern Delaware. Not Prepaid.

Plants may look wilted on arrival, but they will grow if planted immediately. New growth will start from center.

Yellows Resistant Varieties

These varieties will produce a normal crop on soils that are infected with the disease known as Yellows, where non-resistant strains would fail completely.

Marion Market: A yellows resistant strain of Copenhagen Market but not so early. Round head, tender and crisp.

Wisconsin All Seasons: An excellent substitute for the regular All Seasons on diseased land. Fine for Kraut.

State variety. Not Prepaid. Yellows Resistant varieties shipped only from Valdosta, Ga.

Attention Market Gardeners!

Write for special prices on larger quantities of Onion, Tomato, Cabbage, or Pepper plants.

PEPPERS—Field Grown Plants

The successful truck farmer diversifies his crops. He grows a wide variety of the things the consumer demands. The demand for Peppers is steadily increasing. You can cash in on this demand by growing a crop of Peppers from Sears field grown plants—the easy and quick way. Ready for shipment from Valdosta, Ga., about April 10th. Late season orders shipped from Southern Delaware.

Varieties are listed in the order of Maturity.

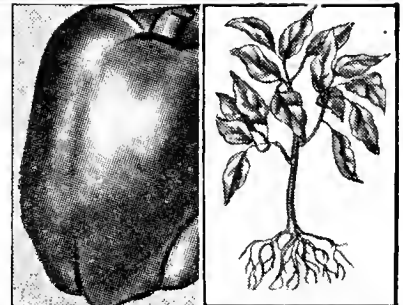

Ruby King. Pods, 4½ to 6 inches long and ¾ inches wide. Sweet and bright Red.

Bell or Bullnose. Large red. Classed as sweet but occasionally plants will produce mildly hot fruit.

California Wonder. Very mild and sweet. Extremely large; ideal to stuff. Green changing to Red.

State variety wanted. Not Prepaid.

FERTO PAPER

- A new, improved, easy method of fertilization.
- Save labor, no weeding necessary.
- Eliminates necessity for cultivating.
- Increases soil temperature.
- Retains moisture in the soil.

Can be used on vegetables or flowers. Ferto is a fertilizer impregnated paper which is laid between the crop rows. The fertilizer on the bottom of the paper is dissolved by moisture and carried into the soil. Ferto Paper prevents weed growth, acts as a moisture retainer and increases soil temperature, all of which stimulate plant growth and result in heavier yields.

Ferto disintegrates after its period of usefulness is over and does not have to be removed or spaded in. Simply lay it between the rows and anchor with a thin layer of earth. No need to hoe or cultivate when you protect the soil with Ferto, as weeds cannot grow through Ferto paper.

Our Personal Service Department Grows... As We Aid Thousands to Solve Buying Problems!

A Staff of Experts... to Answer Your Questions

Home Advisor

Farm Implements

Fashions

Stoves

Rugs and Carpets

Table Linens

Birds and Pets

Children's Wear

Furniture

Draperies

Plumbing Supplies

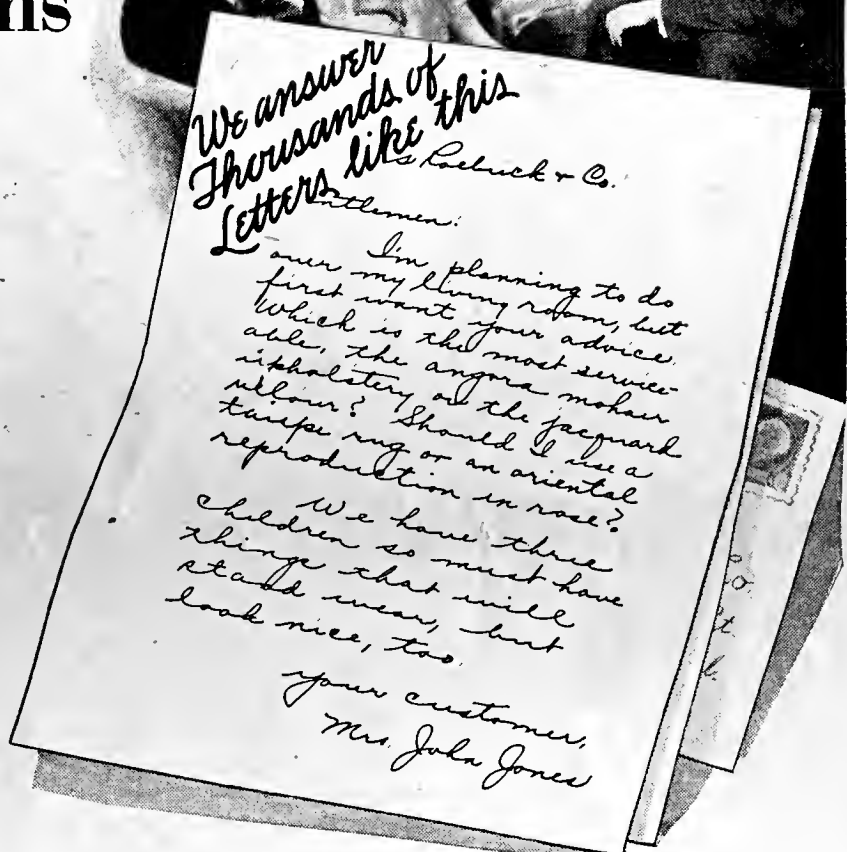

Dress Materials

It all started when a customer's inquiry about matching rugs and furniture was referred to Sue Roberts and was most satisfactorily answered; a style problem was solved by Anne Williams; an expert in the farm implement department gave valuable advice on a choice of farm machinery... and before we realized it, our Personal Service Department was full grown!

Now, answering the thousand and one questions our customers fire at us, we have a complete staff, all experts in their various lines, who are here to give you sound, helpful information at no cost to you.

ASK US anything you want to know about our rugs, stoves, furniture, paints, wall paper, washing machines, lighting fixtures, plumbing and heating supplies, farm equipment... in short, ask us when you want further facts about any of the 48,000 articles in our big new catalog.

To each member of our Personal Service Department is available the combined knowledge and long experience of many manufacturers, buyers and merchandise men. Our staff also has at its command a fully equipped testing department and scientific laboratory, to bring you exact information in answer to

any question you might ask about our merchandise or installation problems.

Write us today, if you are undecided as to just which choice of merchandise you should make... if you wish to know more about size, color, weight, or texture... if you cannot decide on quality or finish. Sit down, now, and write us a friendly letter. Tell us your problem and we will use every resource at our command to give you a clear, intelligent answer... such as you would receive from a friend right in your own home.

Spray Promptly

Barrel Spray Pump

WAS \$14.80

NOW \$11.35 Complete

- Develops 200 lbs. pressure.
- 2½-in. seamless brass cylinder.
- All working parts brass or bronze.
- Full cupped plunger leathers.
- Twin-paddle agitators.
- Connection for two leads of ½-in. hose.
- Long handled pump.
- Removable valves.
- 3x33-in. steel air chamber.

Specially designed for medium sized orchards and fruit farms. Slow pumping produces a heavy, far reaching mist spray, suitable for the largest fruit trees. Ample capacity for fast and thorough coverage. Also for spraying disinfectants, whitewash, cold water paint—and for general use.

Heavy adapter holds pump firmly in barrel. Connections for two leads of ½-inch hose. A brass cap is supplied for one outlet so that but one hose may be used if desired. Adjustable for any average size barrel. Barrel not included.

32 E 2627—Complete with 12½ feet of hose, shut-off cock and nozzle: Shpg. wt., 57 lbs. **\$11.35**
 Not Prepaid.....

32 E 2626—Pump only, without hose or nozzle. Shpg. wt., 52 lbs. Not Prepaid..... **\$9.95**

Develops 150 Lbs. Pressure

- 1½-in. seamless brass pump cylinder.
- All working parts brass or bronze.
- 1½-in. by 29 in. steel air chamber.
- Full-cupped plunger leathers.
- Dasher type agitator, adjustable.

Adjustable bracket for attaching within a tub or any height barrel. Strainer is easily removed for cleaning. Barrel not included. Not Prepaid.

32 E 2629—Pump complete with 8 feet of ¾-inch hose and nozzle. **\$6.25**
 Shipping wt., 34 lbs.

32 E 2628—Pump only without hose or nozzle. Shpg. wt., 30 lbs. **\$5.20**

BRASS Y Used to attach two nozzles. Fits ¼-inch pipe. Shipping wt., 4 oz. **32 E 2677**—Not Prepaid.... **40c**

SPRAYING FRUIT TREES

WHITEWASHING

- 32 E 2665**—Brass extension pipe, 2 feet long with 45-degree elbow. Shpg. wt., 8 oz. **35c**

HERCULES, JR.

Suitable where lighter weight is desired. Identical to 32 E 2611 above, except 2 1/2-gal. capacity tank; 7 1/2-in. diameter; 15 in. high; does not have 2 ft. brass extension. Shpg. wt., 9 lbs. Not Prepaid.

- 32 E 2613**..... **\$3.50**
- 32 E 2668**—Repair Kit for all sprayers listed above. Shpg. wt., 1 lb. **35c**

... High-Speed Adjustable CRANK DUSTER

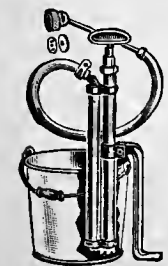

- Will spray anything in powder form.
- Graduated dial for quick and accurate adjustment of pounds per acre.
- Encased machine cut steel gears run in heavy oil.

Used for potatoes, beans, tobacco, cabbage, melons, berries, fruit trees, shrubbery; and for control of the boll weevil with calcium arsenate. Breaks lumps up into fine powder. Easy to crank. Case is of heavy sheet steel, nicely finished. Covers two rows at a time as fast as operator can walk. Equipped as shown above. Not Prepaid.

- 32 E 2620**—Cap., 2 to 5 lbs. **\$7.95**
Shpg. wt., 15 lbs.
- 32 E 2621**—Cap., 7 to 10 lbs., with double agitator and sheet metal body rest. Shpg. wt., 24 lbs. **\$12.35**

- Length overall, including galvanized steel extension tube, 40 inches. Capacity, 3 lbs.
 - Cylinder, 17 1/2 inches long, 1 3/8 inches diameter.
 - Heavy steel plunger; leather cup; wood handle.
- Direct compression. Glass reservoir. For any dusting. Deflector dusts under leaves. Not Prepaid.
- 32 E 2622**—Shpg. wt., 3 lbs. 8 oz. **\$1.10**

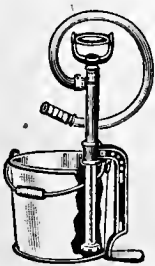

Single Acting Spray Pump

- Air chamber maintains continuous pressure on down stroke. Easier to handle than double acting pump.
- Develops 200 lbs. pressure.
- All working parts of brass.
- Bronze ball valves.

Sprays small trees, vines and fruit bushes, garden truck and flowers. Disinfects poultry and live stock. Also for whitewashing buildings and fences. Ht. overall, 24 1/2 in. Equipped with 3 feet of 3/8-inch hose, 12-in. extension rod, spray nozzle with attachment for solid stream. Bucket not included. Wt., 7 lbs. Not Prepaid.

32 E 2601
\$2.75

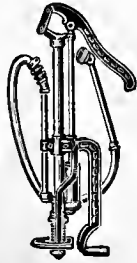

Double Acting Spray Pump

- Pump on up and down strokes maintaining continuous pressure.
- Develops 150 lbs. pressure.
- Cylinder and working parts of brass.
- Bronze ball valves.
- Height overall, 25 in.

For whitewash, insecticides, etc., for washing windows and autos. Pump and working parts are non-corrosive. Gives continuous even spray. Has 3 ft. of 3/8-inch hose and 1 nozzle. Can easily be operated with one hand while the other directs the spray. Bucket not included. Not Prepaid.

32 E 2600
Shpg. wt., 4 lbs. **\$1.89**

Combination Spray Pump

- For Bucket or Barrel.
- Develops 200 lbs. pressure.
- All working parts are brass.
- Steel air chamber, 1 1/2 x 2 1/2 inches.
- Brass pump cylinder, 1 1/2 x 6 3/4 inches.
- Spray and steady stream nozzle.
- 5-ply, 3/8-in. hose, 3 ft. long.
- 1-ft. extension pipe.
- 5 1/2-in. self cleaning brass screen.

For general insecticide spraying; whitewashing. Produces powerful, continuous spray or solid stream. Malleable iron, adjustable foot rest can be removed when pump is used with barrel. Bolts into barrel. Shpg. wt., 10 lbs.

32 E 2623
Not Prepaid... **\$4.70**

Same pump as furnished with Knapsack Sprayer 32 E 2645. Suction hose with weighted iron pipe strainer. Nozzle for spray or solid stream. Shpg. wt., 4 lbs. 12 oz. Not Prepaid.

32 E 2648..... **\$2.75**

PEERLESS Automatic Compressed Air Sprayer

- Develops 60 pounds pressure.
- Galvanized steel tank; 3 3/4-gallon capacity.
- Diam., 7 1/2 in.; ht., 20 in.
- 24-in. brass extension rod.
- 1 3/4-in. seamless brass pump.
- 20 in. of 3/8-in. 5-ply spray hose. All brass nozzle.
- Automatic shut off valve.
- Wide durable shoulder strap.

Similar to 32 E 2611, except has 1 3/4-in. seamless brass pump cylinder and with compression cap instead of the improved quick action cap on our finest sprayer shown at right. Not too heavy for easy carrying. Shpg. wt., 11 lbs. Not Prepaid.

32 E 2614..... **\$3.60**

Hand Sprayer

- Galvanized steel tank; 3-quart capacity.
- Pump, 13 in. long; 1 1/2-in. diameter.
- Large screw cap for filling.
- Adjustable nozzle.

Develops any type of spray from finest fog to solid stream. Handles fly oils, insecticides, disinfectants, and deodorants. Tank is double seamed and thoroughly soldered. Shpg. wt., 2 lbs. 8 oz. Not Prepaid.

Minimum Freight Rate Is Based on 100 Pounds. Use Every Ounce! P1518 **725**

Freight Orders Save You Most

The rates below which are for your convenience and general reference are estimated rates and are not to be accepted as actual.

The freight rate you actually pay is exactly the same no matter who makes the shipment, as freight rates are not determined by the shipper, or by the railroad. They are controlled by the Interstate Commerce Commission.

If you would like to know what the actual freight charge will be on any article or order, ask your Station Agent, telling him the exact weight as stated in our catalog and where the article will be shipped from, or write to Sears Personal Service and we will gladly figure it for you.

Freight Is Economical

When your merchandise is sent by freight, shipping charges are much less than other methods of transportation. Of course, 100 pounds or more is the most economical freight shipment, because all railroads charge as much for carrying less than 100 pounds as they do for a full 100 pound shipment. When the weight of your order is more than 100 pounds you pay freight charges based on the actual weight, but in no case less than the minimum charge which is 50c.

Build Your Order up to 100 Pounds—or More

Add up carefully the shipping weights of the articles on your freight order, and if the total weight is less than 100 pounds, it will pay you to build it up to 100 pounds or more. Why not have one or two of your neighbors or friends join with you to make up a shipment of 100 pounds or more, as it costs no more to ship 100 pounds by freight than it does less than 100 pounds. The additional saving will be worth while.

Warehouse and Factory Shipments

We ship much of our heavier merchandise direct from warehouses and factories near you to save you transportation costs. The descriptions of this merchandise give you these various points of shipment. These articles must be shipped separately and cannot be included with goods shipped from our store.

How to Estimate Freight Charges

If you want to estimate freight charges and you do not know how far you live from our mail order store, refer to map on the parcel post page for approximate distance. Figure up the total weight of your order from the shipping weights given in the descriptions in this catalog. Then, by referring to the chart below, you can easily estimate the freight charges. The actual charge may be slightly more or less, especially when the shipment weighs less than 100 pounds. In such cases the minimum freight charge applies.

Example: Suppose you live about 200 miles from PHILADELPHIA and order an incubator weighing 125 pounds. The list below shows the freight charges for 100 pounds on incubators to be 64c. Multiply the shipping weight, 125 pounds (1 1/4 times the hundred pound rate), by 64c and your answer is 80c, the approximate total freight charge.

If There Is a Freight Agent at your station you pay the freight charges when you receive your shipment.

If There Is No Freight Agent at your station, be sure to include with your order sufficient money in addition to the price of the merchandise to cover the freight charges. We always return every penny you send over actual amount required to ship your order.

We Guarantee Safe Delivery of Your Order

Be Sure to Send Additional Money to Pay Postage

Charges for parcel post shipments must be paid in advance. Add the amount for postage to the cost of the merchandise and include it in your remittance. *We always return every penny you send over actual postage required.*

It Is Easy to Figure Parcel Post Charges

The shipping weight is given in the description of each article. In the last two columns of the order blank show the shipping weight of each article ordered, in pounds and ounces. Add the pounds and ounces, and change the ounces into full pounds (see table below). Then show the total weight of your order in pounds.

In figuring postage on packages weighing more than one pound, the Postoffice figures a fraction of a pound as a full pound. For example: If the total weight of your order is 7 pounds 2 ounces, it will take the 8-pound rate.

Total Ounces	Takes Rate for
9 oz. to 16 oz.	1 lb.
17 oz. to 32 oz.	2 lbs.
33 oz. to 48 oz.	3 lbs.
49 oz. to 64 oz.	4 lbs.
65 oz. to 80 oz.	5 lbs.

and so on

In case you don't know in which zone you live, refer to the map below or ask your carrier or postmaster. When you have the total weight of your order and

you know the zone in which you live, refer to the chart at the left and you can immediately tell the amount of postage required to ship your order.

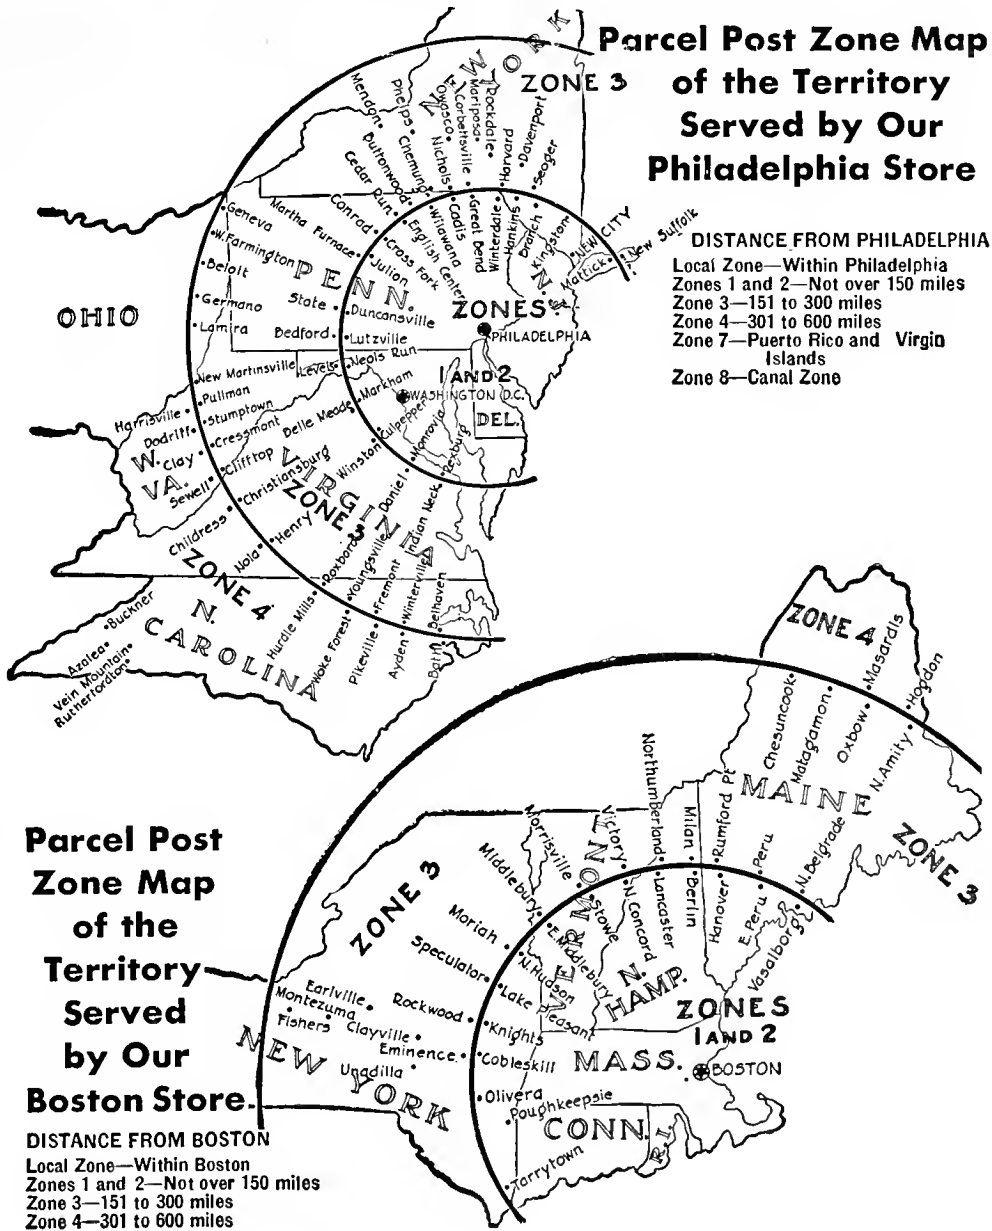

Packages weighing up to 70 pounds can be carried by Parcel Post in All Zones. Explosives, Inflammable Articles and Poisons cannot be shipped by Parcel Post. All heavier and bulkier packages that cannot be shipped by parcel post can be shipped economically by freight or express (see freight page).

For special delivery or any other information regarding parcel post matters, ask your carrier or your postmaster.

Larger Orders Increase Saving

There is a decided advantage to you in sending larger orders, as the postage on several articles is often not much more than for one or two! For example, postage on a 1-pound package to the 3rd zone is 9c; while postage on a 10-pound package to the 3rd zone is only 27c, less than 3c a pound. Larger orders reduce your transportation cost and increase your saving!

We Guarantee a saving on every purchase after you have paid postage or shipping charges.

We Guarantee Safe Delivery of All Our Shipments

(E Spec. Cat.)

Buy By Mail FROM THIS SEARS CATALOG

IT'S EASY TO ORDER

... Buying by mail at Sears is convenient and economical. You can do all your shopping leisurely .. anytime you wish .. from your easy chair in the comfort of your own home.

Simply pick out the things you want, write them down on one of our order blanks, figure up the total cost of the articles ordered and enclose amount of money required, including allowance for parcel post or other shipping charges. If you haven't one of our order blanks, any plain paper will do. Write in any language.

When making up your order be sure to give the correct catalog number, quantity desired, name of article and, wherever necessary, *state size and color.*

The best ways to send money are by postoffice money order, express money order, bank draft or personal check. We do not recommend sending currency remittances, but, if absolutely necessary, be sure to have the letter registered. If you live on a rural route, you can give the carrier your order and money, and he will buy a money order for you. When in a special hurry, you may telephone or telegraph your order to our Mail Order Store, and the merchandise will be sent you C.O.D. Telegraph or telephone to Special Order Desk.

Our monthly terms are fully explained in descriptions of articles offered on easy payments. When ordering on Easy Payment Terms, be sure to use one of our Easy Payment Order Blanks. On all merchandise except that which our catalog states can be bought on easy payments, our terms are cash in full with order.

Important Information Regarding Prices

Should the Federal Government or any State find it necessary to increase by taxes or otherwise the cost or selling price of any of the merchandise described in this Catalog, we reserve the right to add any such taxes or other increases of cost or selling price to the prices of the merchandise as shown in this Catalog.

A Sears Special Catalog which brings to you a wide selection of Tested Quality Merchandise ... backed by Sears famous Guarantee of Satisfaction. This catalog is made up mostly of pages taken from our big General Catalog, the Big Store in Your Home, which explains why you may find references to pages not contained in this book

These Prices for Mail Orders ONLY....

The Low Prices in this Catalog are available only to customers who order by mail. Because of over-the-counter delivery, our retail store prices on this same merchandise are usually higher than Catalog prices.

WE Guarantee

To save you money

To deliver all merchandise safely

To satisfy you perfectly

We Guarantee that every article in this catalog is honestly described and illustrated.

We Guarantee that any article purchased from us will give you the service you have a right to expect.

If for any reason whatever you are not satisfied with any article purchased from us, we want you to return it to us at our expense. We will then exchange it for exactly what you want . . . or will return your money, including any transportation charges you have paid.
